LINES OF LIGHT

LINEE DI LUCE

Segni e linee prendono forma tra fuoco e materia.

La luce si descrive nell'irregolarità del vetro creando tenui ombre ed esaltando tutta la sapienza di gesti antichi dove l'unicità della forma si sposa al design. Questo è il nostro modo di interpretare e rendere viva la luce.

"Signs and lines takes shape from fire and raw materials. The light describe in the irregularity of glass creating faint shades and raising all the wisdom of ancient gestures where the oneness of shape combine with design. This is our way to interpret and to make alive the light."
